

# LEVEL\_NUMBER

The distance of the member from the root of the hierarchy. The root level is ALL level and has a LEVEL\_NUMBER of zero.

## Syntax

```
Member_Expression.LEVEL_NUMBER
```

## Input Parameters

None

## Return Value

Integer

## Example

Don't display sales amount at the Year level, however, display sales amount at all other levels.

```
IIF([Order Date Dimension].[Order Retail445].currentMember.LEVEL_NUMBER = 1, NULL, [Measures].[salesamount1])
```
