

# MEMBER\_LEVEL\_NUMBER

The distance of the member from the root of the hierarchy. The root level is the ALL level and has a `LEVEL_NUMBER` of zero.

## Syntax

```
Member_Expression.MEMBER_LEVEL_NUMBER
```

## Input Parameters

N/A

## Return Value

Integer

## Example

Don't display sales amount at the Year level, however display sales amount at all other levels.

```
IIF([Order Date Dimension].[Order Retail445].currentMember.LEVEL_NUMBER = 1, NULL, [Measures].[salesamount1])
```
