

Viewing And Updating Licenses

On the **Settings > License** page, you can view information about your current AtScale license, including its expiration date, details about your usage of the platform, and the specific features included in your license. You can also update your license, if needed.

Updating Your License

To update your AtScale license:

1. Log in to AtScale as an admin.
2. Open the main menu and select **Settings**.
3. In the **Settings** panel, click **License**.
4. Click **Update License**
5. Enter your new license key and click **Submit**.
