AtScale I2024.2.1: Liberate Your Data

Welcome to the I2024.2.1 release. Review the Release Notes before upgrading from earlier versions.

Essential Links

If you are a system administrator:

- ▲ Install Stand-Alone AtScale
- ▲ Install Clustered AtScale

If you are an AtScale administrator:

- ▲ Configure and manage AtScale

If you are a data modeler:

- ▲ Design and publish cubes in the AtScale Design Center

If you are a developer, use REST APIs to perform many AtScale functions, and event webhooks to send callbacks to your applications:

- ▲ Develop applications that use AtScale

If you connect to AtScale cubes from client BI software, learn how to connect to data sources in the AtScale Design Center:

- ▲ Connect to AtScale from Business-Intelligence Software
