

# CDBL

Casts the value to a Double. Returns Null if the cast is invalid

## Syntax

```
CDBL(Value_Expression)
```

## Input Parameters

**Value Expression**

## Return Value

Returns a Double.

## Example

Return the right 4 characters from the member's name as a Double

```
CDBL(RIGHT([Order Date Dimension].[Order Retail445].currentMember.NAME, 4))
```
