PARENT_LEVEL

The distance of the member's parent from the root level of the hierarchy. The root level is zero.

Syntax

```
Member_Expression.PARENT_LEVEL
```

Input Parameters

N/A

Return Value

Integer

Example

Don't display sales amount at the Year level, however display sales amount at all other levels.

```
IIF([Order Date Dimension].[Order Retail445].currentMember.PARENT_LEVEL = 0, NULL, [Measures].[salesamount1])
```
