

# Viewing And Updating Licenses

Users with the super user permission can view, add, and update an AtScale license from the License page, located in the Settings tab.

On the License page, you can view the expiration date and restrictions on your current license.

To add or update a license, follow the procedure below.

## Before You Begin

To add or update an AtScale license, you must:

- ▲ Be logged into AtScale as a super user
- ▲ Have a license file provided by AtScale ready to upload

## Procedure

1. As a super user in AtScale, go to the Settings tab and select **License** from the navigation pane to go to the License page.
2. Under Upload License, select **Browse**.
3. Browse to the location of your license key from your local computer and upload the file. A notification appears if the upload is successful.
